Professional Summary

Software Engineer with over 7 years of experience designing and building scalable web applications using **Laravel, Vue.js, and RESTful APIs**. Experienced in enterprise systems, and microservice-based architectures. Skilled at quickly learning new technologies, managing multiple projects simultaneously, and delivering high-quality results in high-pressure environments. Passionate about continuous growth, system optimization, and contributing to impactful software solutions.

Technology Stack

- **Languages:** PHP · Python · SQL · JavaScript
- **Frameworks & Libraries:** Laravel · Livewire · Inertia.js · Vue.js · Pusher.js
- **Architecture:** Microservices · Serverless (AWS Lambda)
- **Cloud & Messaging:** AWS Lambda · API Gateway · Kafka · S3 · EC2 · RDS
- **Databases:** MySQL · MariaDB · PostgreSQL · SQLite · Redis
- **API:** REST · Payment APIs · SMS/Email APIs
- **Frontend & Styling:** HTML5 · CSS3 · Tailwind CSS · Bootstrap · Vite
- **Version Control:** Git · GitHub · GitLab · Bitbucket
- **DevOps & Tools:** Docker · Nginx · GitHub Actions · Postman
- **OS:** macOS · Linux (Ubuntu, CentOS) · Windows

Key Projects

- **E-commerce & POS System:** Developed a full-featured e-commerce platform integrated with a POS system for retail businesses. Includes product management, inventory tracking, order processing, batch management, sales analytics, and payment support. ***Tech Stack:*** Laravel, Vue.js 3, MySQL, REST API, Bootstrap.
- **ePayment System:** Built a centralized digital payment platform for educational institutions to manage admission fees, academic fees, and hostel payments with online gateways integration. Supports automated invoices, payment verification, and financial reporting. ***Tech Stack:*** Laravel, Vue.js, MySQL, REST API, ShurjoPay, SSLCommerz
- **eCook Mobile Backend (Microservice):** Designed and developed a scalable microservice-based backend to support a mobile cooking application with recipe management, user interactions, and API-driven data delivery. Optimized for mobile performance and scalable deployments. ***Tech Stack:*** Laravel, Python, Microservice Architecture, REST API, MySQL, Docker
- **School Management System (SaaS Based):** Multi-tenant SaaS platform for schools to manage students, admissions, attendance, hostel management, fee collection, examinations, and financial reporting. Includes role-based access control and centralized administration. ***Tech Stack:*** Laravel, Vue.js, MySQL, REST API, SaaS Architecture

- **Project Management System:** Developed a collaborative system to manage projects, tasks, team members, progress tracking, and reporting. Designed to improve team productivity and workflow transparency. ***Tech Stack:*** Laravel, Vue.js, MySQL, REST API

Professional Experience

Software Engineer

Riseup Labs | September 2022 – Present

- Developed and maintained large-scale enterprise and government web applications.
- Built REST APIs and frontend modules using Laravel and Vue.js.
- Worked on Teachers Portal, Teachers Guide, Choto.co, eCook (IoT), and UYouth.

Tech Stack: Vue.js, Laravel, Python, Microservices, MySQL, PostgreSQL, Redis, AWS

Programmer (PHP / Laravel / Vue.js)

Nogor Solutions Ltd. | April 2019 – August 2022

- Developed enterprise portals including BASIS Web Portal.
- Built backend services using Laravel and MongoDB.
- Designed REST APIs and Vue.js dashboards.

Tech Stack: Laravel, Vue.js, JavaScript, MySQL, MongoDB

Programmer (PHP)

Link-Up Technology Ltd. | January 2018 – March 2019

- Developed POS, e-commerce, and MLM systems.
- Worked with Laravel and CodeIgniter frameworks.

Education

BSc in Computer Science & Engineering

Dhaka International University
CGPA: 3.34 / 4.00

Diploma in Computer Technology

Feni Polytechnic Institute
CGPA: 3.18 / 4.00

Certifications & Training

- Web Application Development (Laravel) – BITM
- CodeIgniter & WordPress Development – GENUITY
- Website Design & Development – SBIT
