Professional Summary

Software Engineer with 7+ years of experience building scalable web applications using **Laravel, Vue.js, and RESTful APIs**. Experienced in enterprise systems, microservice architectures, and cloud deployments on AWS and DigitalOcean.

Actively involved in the full project lifecycle from requirements analysis, database schema design, and Figma wireframe review to cross-functional team collaboration and module planning. Committed to clean code, system optimization, and delivering high-quality results.

Technology Stack

- **Languages:** PHP · Python · SQL · JavaScript
- **Frameworks & Libraries:** Laravel · Livewire · Inertia.js · Vue.js · Pusher.js
- **Architecture:** Microservices · Serverless (AWS Lambda)
- **Cloud & Messaging:** AWS Lambda · API Gateway · Kafka · S3 · EC2 · RDS
- **Databases:** MySQL · MariaDB · PostgreSQL · SQLite · Redis
- **API:** REST · Payment APIs · SMS/Email APIs
- **Frontend & Styling:** HTML5 · CSS3 · Tailwind CSS · Bootstrap · Vite
- **Version Control:** Git · GitHub · GitLab · Bitbucket
- **DevOps & Tools:** Docker · Nginx · GitHub Actions · Postman
- **OS:** macOS · Linux (Ubuntu, CentOS) · Windows
- **Analysis & Collaboration:** Requirements Analysis · DB Schema Design · Wireframe & Figma Review · Module Planning · Team Collaboration

Key Projects

- **E-commerce & POS System:** Developed a full-featured e-commerce platform integrated with a POS system for retail businesses. Includes product management, inventory tracking, order processing, batch management, sales analytics, and payment support. **Tech Stack:** Laravel, Vue.js 3, MySQL, REST API, Bootstrap.
- **ePayment System:** Built a centralized digital payment platform for educational institutions to manage admission fees, academic fees, and hostel payments with online gateways integration. Supports automated invoices, payment verification, and financial reporting. **Tech Stack:** Laravel, Vue.js, MySQL, REST API, ShurjoPay, SSLCommerz
- **eCook Mobile Backend (Microservice):** Designed and developed a scalable microservice-based backend to support a mobile cooking application with recipe management, user interactions, and API-driven data delivery. Optimized for mobile performance and scalable deployments. **Tech Stack:** Laravel, Python, Microservice Architecture, REST API, MySQL, Docker
- **School Management System (SaaS Based):** Multi-tenant SaaS platform for schools to manage students, admissions, attendance, hostel management, fee collection, examinations, and financial reporting. Includes role-

based access control and centralized administration. **Tech Stack:** Laravel, Vue.js, MySQL, REST API, SaaS Architecture

- **Project Management System:** Developed a collaborative system to manage projects, tasks, team members, progress tracking, and reporting. Designed to improve team productivity and workflow transparency. **Tech Stack:** Laravel, Vue.js, MySQL, REST API

Professional Experience

Software Engineer

Riseup Labs | September 2022 – Present

- Developed and maintained large-scale enterprise and government web applications.
- Worked on Teachers Portal, Teachers Guide, Choto.co, eCook (IoT), and UYouth.
- Collaborated with cross-functional teams to gather project requirements, design database schemas, review Figma wireframes, and align module planning across development cycles.

Tech Stack: Vue.js, Laravel, Python, Microservices, MySQL, PostgreSQL, Redis, AWS

Programmer (PHP / Laravel / Vue.js)

Nogor Solutions Ltd. | April 2019 – August 2022

- Developed enterprise portals including BASIS Web Portal.
- Built backend services using Laravel and MongoDB, Designed REST APIs and Vue.js dashboards.

Tech Stack: Laravel, Vue.js, JavaScript, MySQL, MongoDB

Programmer (PHP)

Link-Up Technology Ltd. | January 2018 – March 2019

- Developed POS, e-commerce, and MLM systems. Worked with Laravel and CodeIgniter frameworks.

Education

BSc in Computer Science & Engineering

Dhaka International University

CGPA: 3.34 / 4.00

Diploma in Computer Technology

Feni Polytechnic Institute

CGPA: 3.18 / 4.00

Certifications & Training

- Web Application Development (Laravel) – BITM
- CodeIgniter & WordPress Development – GENUITY
- Website Design & Development – SBIT
